## Rugged, Portable, Versatile, Secure External Storage Solution

The perfect solution for rugged, versatile, and portable data storage. This customized MediaPac offers 500 or 1TB of storage capacity and connects through the new “superspeed” USB 3.0 port or any existing USB 2.0 port. All connections are “hot-swap”, require no additional software or drivers and provide 30-90MB/s data transfer rates. The small size and light weight make it the perfect option for use with laptop computers, but the large capacity and fast data transfer rates can easily handle desktop back-up as well. The MediaPac has all aluminum construction and comes with a crush-proof and water-resistant IP67 rated storage/carry case.

**MODEL / SEWP CLIN**

- ADV-US3-500 / A824739
- ADV-USB3-1000 / A873230

**USB 3.0 / 2.0 data cable**

The data cable is compatible with the new superspeed USB 3.0 ports, but is also backwards compatible with all USB 2.0 ports. The graph below shows the 3X improvement in data transfer rate that is possible using USB 3.0. The MediaPac will work with your system today and have you ready for USB 3.0 in the future. Most USB ports provide power to operate the drive using the data cable, but a separate USB to 5Vdc cable is provided just in case.
